PROFESSIONAL SUMMARY

Frontend Developer with project experience in React, Next.js and TypeScript. Builds responsive Persian/English applications with REST API integration, state management and role-based workflows, including validated forms, reusable components and dashboards.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
Frontend & State: React, Next.js (App Router), Redux Toolkit, TanStack Query, Context API
UI & Forms: Tailwind CSS, React Hook Form, Zod, Responsive Design, i18n, RTL/LTR
Integration: REST APIs, Authentication, Role-Based Access Control (RBAC), Axios
Tools & Supporting: Git, GitHub, Vite, ESLint, Prettier, Firebase, Django REST Framework

SELECTED PROJECTS

Athenlio | Language Learning Platform

Next.js, TypeScript, Redux Toolkit, TanStack Query, Django REST Framework
github.com/shayan-gh82/Athenlio-Final

- Built approval and enrollment workflows for 3 roles: student, tutor and admin; integrated authenticated REST APIs with TanStack Query and validated forms in responsive Persian/English interfaces.
- Validated 15 frontend tests and 8 backend API tests; passed TypeScript and ESLint checks and a production build generating 41 routes.

Athena Team Manager | Frontend Task Management App

React, TypeScript, Redux Toolkit, Vite, Tailwind CSS
github.com/shayan-gh82/Athena-team-manager

- Developed configurable Kanban boards, drag-and-drop, calendar and timeline views; managed project and task state with Redux Toolkit and LocalStorage persistence.
- Implemented reusable UI components, lazy-loaded routes and an error boundary, with bilingual RTL/LTR layouts and light, dark and system themes.

Expense Tracker TypeScript | Personal Finance Dashboard

React, TypeScript, Redux Toolkit, Context API, Recharts, Firebase
github.com/shayan-gh82/expense-tracker-typescript

- Created typed models for wallet transfers and transactions, with Recharts visualizations, CSV import/export and PDF reports; integrated Firebase Google Sign-In with local financial data persistence.

PRODUCT EXPERIENCE

AI Career Coach | Early-stage Product

Frontend Developer & Product Contributor

- Designed bilingual prototypes for resume analysis, job matching and interview practice, connecting job-seeker and employer journeys with dashboards and subscription flows.
- Planned frontend architecture for multi-role AI chat and file-upload workflows.

EDUCATION & TRAINING

B.Sc. in Computer Engineering | In progress
Front-End with ReactJS Bootcamp | Daneshkar
Certificate of Achievement | February-August 2026

LANGUAGES

Persian: Native | English: Upper-Intermediate | Preparing for IELTS
